Tuesday evening

Dear Louise, -

How has school gone this week? I hope interesting, of course it will be a little different than last week. Our lights went out just as we left Providence and pop dropped the lens and lost some time getting another one but everything went alright until we got to the garage and the other light went out.

Our water back needs the plumber and phoned last Tuesday for the stove bricks they have not come yet so we can not have much fire.

Mr. Crippen was here yesterday. I spoke of your being at Wyoming he said that is fine it is a fine school he was there in '83. Mr. Sprague and Mr. Dean were there then. Said Mr. Dean is one fine teacher if you want to learn he will see that you do
